### About Conference

With the grand success of Physical Chemistry 2020, Conference Series is now proud to announce the 8<sup>th</sup> International conference on Physical and Theoretical Chemistry, which is to be held during September 13-14, 2021.

On this great gathering, Organizing Committee invites participants from all over the globe to take part in this annual conference with the theme “Contemporary Advances and Innovations in Physical Chemistry”. Physical Chemistry 2019 aims at sharing new ideas and new technologies amongst the professionals, industrialists and students from research areas of Physical Chemistry, Theoretical Chemistry, Electrochemistry, Photochemistry, Computational Chemistry, Chemical Engineering and Chemical Physics to share their recent innovations and applications in various fields and indulge in interactive discussions and technical sessions at the event. The Conference will also have a space for companies and/or institutions to present their services, products, innovations and research results.

Physical and Theoretical Chemistry involves the tracks like Physical Chemistry: A Molecular Approach, Theoretical and Computational Chemistry, Chemical Physics, Photochemistry, Quantum Chemistry, Biophysical Chemistry, Solid-state Chemistry, Spectroscopy, Surface Science, Chemical Kinetics, Electrochemistry, Organometallic Chemistry.

### Why to attend?

8<sup>th</sup> International Conference on Physical and Theoretical Chemistry, which is going to be the biggest conference dedicated to physical and theoretical chemistry professionals providing a premier technical forum for reporting and learning about the latest new generation technologies developed during the course of time along with discussing their applications. Events include hot topics presentations from all over the world and professional networking with industries, leading working groups and panels.

Meet your objective business sector with individuals from and around the globe concentrated on finding out about Physical and Theoretical Chemistry, this is the best chance to achieve the biggest collection of members from everywhere throughout the World. Conduct shows, disperse data, meet with current, make a sprinkle with another product offering, and get name acknowledgment at this occasion. Widely acclaimed speakers, the latest methods, strategies, and the most up to date overhauls in Physical and Theoretical Chemistry are signs of this meeting.

### **Young Scientist Benefits**

- Our conferences provide best Platform for your research through oral presentations
- Share the ideas with both eminent researchers and mentors
- Young Scientist Award reorganization certificate and memento to the winners
- Young Scientists will get appropriate and timely information by this Forum
- Platform for collaboration among young researchers for better development
- Award should motivate participants to strive to realize their full potential which could in turn be beneficial to the field as whole
